Hi Lawrence:

Here is the job description you requested regarding the stove coordination and communication staff being hired.

Solar electric stove communication and coordination technician (SESCCT)

The SESCCT will communicate and coordinate activities regarding use, testing and communication regarding solar electric stoves developed and built by Kuyere Malawi. The technician will cook at least one small meal or dish per day (e.g. vegetables/greens, eggs, beans, rice, or Nsima) and post a picture and description daily to either facebook or a Whatsapp chat. The technician will also communicate frequently with students and/or staff at California Polytechnic State University (Cal Poly), at least five times per week in order to ask questions, answer questions and maintain a steady flow of information with the Cal Poly team regarding solar electric stove construction, testing, and use. The technician will coordinate with other Kuyere Malawi staff in the construction and testing of new cookers, and will share experiences with the Cal Poly team via Whatapp and Facebook.

Sincerely,

Robert VB
